- Elective Bookings/ Pre- admission clinics
- Women's Health Clinics
- Perioperative Services
- Day Surgery Unit
- Gynaecology and Women's Cancer Services (5 North)
- Neonates

All placements are of twelve months duration.

Please rank your preferences below:

i.e. 1= most preferred area, 2= 2nd most preferred and 3 as 3rd most preferred area.

If you particularly do not wish to go to an area leave the space blank.

Elective Bookings/Pre-admission clinic (0.8 EFT)

Elective Bookings provides women with a thorough and holistic pre-admission health assessment. You will be trained and develop assessment skills to prepare patients for elective surgery and education to patients for pre-operative and post-operative care. You will attend pre-admission clinics to assess and triage patients to pre-admission assessment clinics and call patients to discuss their past history and make assessments. The role is Monday to Friday with no weekends or night duty.

Day Surgery Unit (0.9 EFT)

Graduates rotate through a range of the following areas: Anaesthetics, Day Surgery Unit, Post-Acute Care Unit and Operating Suites (scrub & scout). Graduates will have exposure to many Women's surgical procedures including Caesarean sections, breast surgery and hysterectomies.

Perioperative Suites (0.9 EFT)

Graduates will have exposure to many Women's surgical procedures including Caesarean sections, breast surgery and hysterectomies.

Women's Health Clinics (0.8 EFT)

The Women's Health Clinics are an outpatient service offering a number of specialist clinics to women.

Gynaecology and Women's Cancer – 5 North (0.8 EFT)

A 24 bed gynaecological/oncology surgical ward. We care for women undertaking gynaecology and oncology surgical and medical procedures.

Neonates (0.8 EFT)

Special Care Nursery (40 cots) provides high dependency care and convalescent care as a 'step down' service to Intensive Care.
